

Bill Almas

Bill Almas retired from Chevron as a Senior Real Estate Manager in 2015. He held various positions with Chevron and Unocal before that time including Environmental and Regulatory Manager, Manager of Government Affairs, Area Manager and Environmental and Regulatory Manager for MolyCorp, a subsidiary of Unocal. He was the lead for Unocal property purchase and settlements associated with the Avila Beach remediation and managed the preparation of the San Luis Obispo Chevron Tank Farm Environmental Impact Report and various property sales. He is familiar with the CEQA process in San Luis Obispo County and land planning issues related to environmentally affected properties. Bill holds a B.S. degree from Colorado State University College of Natural Resources and a MBA from the University of Colorado.

Prior to working for Chevron, Bill worked for several uranium mining and processing companies as an Environmental Manager and scientist. As such, he was responsible for permitting and compliance for operating facilities and was part of the team responsible for the decommissioning and reclamation of several uranium mining and processing facilities regulated by State and Federal authority.

Bill and his wife Karen have lived in San Luis Obispo for 21 years. He has been active and had Board positions in the Rotary Club of SLO Daybreak, San Luis Obispo Chamber of Commerce, Mt. Carmel Lutheran Church and the Literacy Council. By participating on the Engagement Panel, he hopes to help plan for the responsible decommissioning of the Diablo Canyon site, including conservation of unaffected lands and appropriate reuse of areas affected by operations.
